

Sergey Gormash * Bobruisk, Mogilev area * March-April 2020

I am sincerely greeting you with the words Christ has Risen! He is Risen Indeed! Praise the Lord for His resurrection, our salvation in Him, victory over death and eternal life.

COVID-19 is challenge for the whole world as we face the new reality. Luke 21:28, says, "Now when these things begin to take place, straighten up and raise your heads, because your redemption is drawing near." There are many opportunities now for preaching the Gospel as people are open to hear the Good News of Christ.

All countries in this world have a quarantine, but in our country, we have no quarantine. We continue to have Sunday church service and people attend the church to listen to the Gospel.

We organized and held a meeting for our sisters on March 8. Brothers also joined to the meeting. We invited unchristian families for the meeting to share the Gospel

We rejoiced to celebrate Easter. Our choir took part in the Easter service and I preached about Jesus Christ's victory and His work in the hearts of people now. Children also took part in Easter service. (photo)

God touched heart of Georgy. He is a musician. His wife passed away and many trials came to his life after his wife's death. He was in the hospital for people with cancer and we visited him there. He has not any relatives. We visited him with the purpose to support him spiritually and physically. He asked me to bring him spiritual literature. We pray and ask the Lord to have mercy upon him and heal him for His glory. (Photo) in the hospital.

I visit many churches in my area and we are faced with a lot of sad events which took place in history. I visited Slavgorod and learned a very sad event. German soldiers took 30 people out of the house of prayer and killed them outside of the town. They refused to get German passports and soldiers killed them all. One sister survived in this tragic event. She lost consciousness when she heard shot fire. It saved her life. She came to herself and went to town. She told about that to people in the town. The local pastor showed me that place where they buried believers.

The pastor set up a monument with the names of all believers who had died on that place. (Photo)

I hear such stories very often and it encourages me to preach the Gospel as much as possible to as many people as possible so they come to saving faith in Him.

We have set a text from the Bible on the house of prayer: "I am coming soon". Our brother Viktor has made the text. He is talented in artwork. A deacon and I have fixed the text on the house of prayer. The goal is to encourage people to come to the Lord as they walk by and see the text on the house of prayer. (Photo)

Our youth one time in a month gather together in our house for fellowships. It is a very good tradition. Young adults from unchristian homes also attend the meeting at my home. We read the Bible and in free form share of our faith to young adults from unchristian homes. We talk on a different important theme from the Biblical perspective. My children, as young missionaries, bring their peers to the meeting and share the Gospel. I am so happy for my children and their ministry. The meeting in my home brings youth together.

We prayed about you over the last period of time! We lift all of those who suffer of illness and uncertainty in life. We are desperately in need of your prayers at this time. Please pray about us and our ministry

With love,

Faithfully Yours,
Sergey Gormash
